DETAILED ACTION

Upon further consideration, the requirement for restriction mailed on May 21, 2007, contained errors and is withdrawn. The following requirement for restriction is now entered.

Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, Applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

I. Claims 1-22, 32-39 and 41, drawn to a method of cutting a semiconductor substrate, in which a die bonding resin layer is attached to the semiconductor substrate prior to irradiation.

II. Claims 23-31 and 40, drawn to a method of cutting a semiconductor substrate, in which a die bonding resin layer is attached to the semiconductor substrate after irradiation.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 12.1 because, under PCT 13.2, they lack the same or corresponding special technical feature for the following reasons: The inventions are categorized as is stated above.

The only recognizable common special technical feature could be the result of the two inventions, namely an individual die cut from a semiconductor substrate.

However, this technical feature is already known from Srinivasan (U.S.P.No. 5,211,805).

The technical feature is thus not novel and does not represent a contribution over the prior art. Therefore, the two inventions do not share a common inventive concept which could establish unity of invention under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
